

NOTICE of REQUEST FOR PROPOSALS
Wilmington Environmental Restoration Committee, Inc.
Olin Chemical Superfund Site.
Wilmington, Massachusetts

The Wilmington Environmental Restoration Committee, Inc. (WERC, Inc.) is requesting proposals from qualified technical advisor(s) to provide assistance in the review and analysis of risk assessments and proposed remedial activities to be undertaken by the U.S. Environmental Protection Agency (EPA) at the Olin Chemical Superfund site, Wilmington, MA. WERC, Inc., a community group of local citizens, has obtained a Technical Assistance Grant from the EPA to assist in the oversight of the remedial actions to be taken at the site. The appropriate technical advisor(s) will have the expertise to perform the scope of work, including expertise in risk assessment, health sciences, toxicology, hydrogeology, and engineering, or explain how they will obtain this expertise. One time and materials contract will be awarded to the best-qualified applicant within a competitive price range.

The Request for Proposals can be obtained from the WERC, Inc. web site at www.WilmingtonERC.org. For additional information, contact Martha Stevenson at mjkstevenson@verizon.net or at (978) 658-5488. Proposals are due August 19, 2008.
